

# THE RUTLAND HERALD:

## Journeyman Coopers Wanted.

OUR Journeyman Coopers will find it for their advantage to call on the subscriber, who will give them employment immediately, to work at Barreiro; a fair compensation will be paid in cash. First rate workmen will be expected.

### For Sale.

200 GOOD CIDER BARRELS, and all kinds of Wooden Ware from 50 Bd Eastern to a salt mortar. GERSHOM CHENEY, 2d. Rutland, October 1, 1838.

*The art of Healing had its origin in the woods and the forest is still the best Medical School.*

## The INDIAN Purgative PILLS:

OR

## UNIVERSAL MEDICINE

OF THE NORTH AMERICAN COLLEGE OF HEALTH.

Established at Washington, D. C. Jan. 8, 1838.

ADDRESS TO THE AMERICAN PEOPLE.

Fellow Citizens:

At a time like the present, when our country is literally flooded with nostrums brought from foreign climes, you may perhaps think it an act of temerity in us to offer, as a candidate for your patronage and favor, a Medicine which is strictly AMERICAN—Common sense, however, teaches us, that those herbs which spring spontaneously from our native soil, must be better adapted to our constitutions than foreign medicines; however useful the latter may have been in the countries to which they belong. The name of the United States stands unrivaled for the production of medicinal plants, and a very little investigation will suffice to convince the most skeptical that our own country is able to supply all our wants, independent of foreign assistance.

Deeply impressed with the importance of the above facts, we venture to recommend the INDIAN PURGATIVE to the patronage of our fellow citizens in every section of the Union, as a natural remedy, applicable to our constitutions, and competent to cure every curable disease.

In bringing a medicine before the public for the first time, it is generally thought necessary to impress the people with an idea of the difficulties encountered in its discovery, or the antiquity of its origin; thus one tells us that his medicine is "a newly discovered chemical compound the result of many years intense study and scientific research," and another ascribes the honor to somebody's GRANDFATHER, &c. Now as the success of a medicine must depend on its intrinsic merits, and not on the time or manner in which it was discovered, we cannot see the use of falsifying, for the purpose of investing its origin with a fictitious antiquity. Such auxiliaries are needed on the present occasion, as a single dose of the Indian Purgative will suffice to convince every invalid (and to such only we look for an impartial verdict) that its curative effects are incalculably superior to those of any other medicines now in use. Proud of this superiority we see no reason to be afraid of exposing it to the world for what it is—SIMPLY'S compound of YOUR SIMPLE HERBS, used for the cure of disease, by the COPPER COLORED WARRIORS OF THE WEST. One of the herbs is an expectorant, one a sudorific, one a diuretic, and one a cathartic. The proper combination of the above forms an antiputrescent and deobstruent medicine, of such EFFICACY and POWER as has hitherto been unknown in the art of healing. Its mode of curing is first to neutralize all putrefactive matter in the body; second to cause the expulsion of the same through the proper outlets, provided by nature for that purpose; consequently its action is not confined to the bowels, although it is greatest there, but extends to the nostrils, throat, salvia, glands, lungs, skin and kidneys.

Each of the above drains is intended by nature for the discharge of an excretion peculiar to itself, and although we may for a time compel the constitution to evacuate the whole through one drain, such treatment cannot fail to derange the mechanism of the body, and utterly ruin the health of the patient. It is true that all diseases arise from impurities of the blood; but it is also true that nature has provided many channels for the discharge of these impurities; therefore we are not likely to benefit the patient by trampling on the laws of nature, in bringing all the different kinds of excretory matter through one channel; hence the evil of attempting to cure all diseases by a course of sweating, or vomiting, or purging, or any other method which operates only one class of excretaries.

No disease ever was or ever will be cured unless by medicines which produce the effects above mentioned. Every system of practice is more or less perfect, in proportion to its power of acting on the different excretaries; and the Indian system claims pre-eminence only because it possesses the power of opening, and keeping open all the natural drains.

The inestimable value of a medicine which will act on all the excretaries, at one and the same time, is more apparent when we reflect that the human body is a complicated machine, consisting of numberless different and distinct members, all of which are intimately connected, and mutually dependent, that no one part can be injured without producing a corresponding degree of injury to every other part; therefore one part of the body cannot be diseased, and another part healthy; neither can one part be cured while another part remains diseased. Disease begins in the blood, and as the blood flows to every part of the system, every part of the system must become more or less diseased; no disease is cured unless the cause is removed, and to remove the cause we must restore the blood to a healthy state, and if the blood is made healthy, every part of the body must be the same.

We have now illustrated the natural or Indian system of practice, and the more it is investigated the more reasonable it appears; as regards its truth, we have only to reflect that it was taught by nature and therefore must be true. When the body stands in need of nourishment, we are impelled by hunger to eat; and when it is diseased, we are impelled by instinct to use medicine; and there cannot be a doubt that if we lived in a state of nature, that instinctive feeling would always direct us to the proper medicine; hence the superiority of the Indian System. The art of healing was first learned in the woods, and to this day the untutored savage is the best medical teacher; for the Indian practice is the only one which is consonant to those eternal and immutable laws which govern the animal economy.

Having already proved that the Indian Purgative acts in direct accordance with the laws of nature, and is therefore equal to the cure of every curable disease, we will now enumerate a few of the complaints for which it has been tried, and found a certain cure among the Indians, and white settlers of the Far West. These are—

FEVERS, Intermittent, Remittent, Nervous, Inflammations and Putrid Fevers; MEASLES; ERYSPHILIS; SMALL POX; INFILTRATIONS of the Brain, Throat, Stomach, Liver, Lungs, Intestines, Kidney, and the Bladder; RHUMATISM, Acute and Chronic; SPITTING and VOMITING of BLOOD; DIABROREA, DYSENTERY and CHOLIC; SYNCOPES, APPLEXY and PARALYSIS; DYSEPSIA and HYPOCHONDRIASIS; TETANUS, EPILEPSY, WHOOPING-COUGH, and PALPITATION of the Heart; Incipient CONSUMPTION and Marasmus; DROPSY of the Head, Chest, Abdomen, and Limbs; SCROFULA, Scurvy, and SYPHILIS; CANCER; GRAVEL, LOSS OF APPETITE, COSTIVATION; RICK HEADACHE, PAINS in the Back, Stomach and Spleen; ULCERS and SORES of every description; HYSTERICS; WEAK NERVES; LOWNESS OF SPIRITS; ALB. LENCORHIXA; MONORRHIA; SUPPRESSION, and all other delicate Female Complaints.

Besides the above, it has been found invaluable in the diseases of infants, so that in the new settlements of the Far West, where the inhabitants keep it constantly beside them, the children are brought up in good health, without any assistance from Medical Men. To sum up the character of the Indian Purgative in a few words, it is only necessary to state that it possesses every curative property which can be possessed by Medicine, viz: the power of opening and keeping open all the natural drains of the body; and that a perseverance in its use,

is all that is necessary in order to assist nature in the cure of every disease to which flesh is heir to."

THE THOUSANDS OF CURES that have already been effected in Philadelphia and Baltimore and other places fully warrant the belief that when this medicine shall become generally known, disease of every kind will be driven from our land.

Dr. Principal Officer for the New England States, for the sale of the above FALUABLE PILLS, No. 193 Tremont street, Boston.

PRICE 25 CTS. PER BOX, WITH FULL DIRECTION.

W. M. FAY, Agent, Rutland Co.

Elixir Vegetable Balsamic.

N. H. DOWNS'

Vegetable Balsamic Elixir.

FOR COUGHS, Colds, Consumption, Catarach, Croup of Asthma, Whooping Cough, and of all other diseases of the head, chest and lungs.

Pamphlets containing a history of the medicine—a sketch of the diseases for which it is recommended, certificates from unquestionable sources—ample directions accompanying each bottle—may be had of any of the Agents.

CERTIFICATE.

For the benefit of the afflicted, I beg leave to give the Rev. N. H. DOWNS' Vegetable Balsamic Elixir, the highest possible recommendation. I have given it to a child of mine whose lungs were evidently dangerously affected and for whom we were much alarmed. After having tried many other remedies in vain—the result is, the disease is now apparently removed and the child restored to health. To effect this, one pint only has been used.

STEPHEN CHANDLER,

Stanbridge, June 22, 1836.

THE above medicine is for sale at the Rutland Book Store, by

W. FAY, Agent.

Certificate of Benjamin Bailey, Jr.

THIS may certify that for more than two years I labored under a severe and distressing affection of the lungs, calling in all the aid of Physicians that could be obtained, with little or no relief until I despaired of ever being able again to benefit myself and family; and were it not for the use of opium to keep up the excitement, should not have been able to get about at all. While in this condition, considering myself in a firm consumption, I was induced to take a bottle of Rev. N. H. DOWNS' Elixir, and found immediate relief therefrom—laid aside my opium—continued the Balsamic Elixir—was able to be about my business, and have thus continued for the last six months comfortable, and have no hesitation in saying to the public that said Balsamic was the only means of my recovery, and do most cheerfully and earnestly recommend it to the public.

BENJAMIN BAILEY, Jr.

Canton, April 26, 1837.

Certificate of Luke Hitchcock.

HAVING received great benefit from the use of the Rev. N. H. DOWNS' Vegetable ELIXIR, I take pleasure in recommending it to others. Its effects were to relieve me of a cough with which I had been troubled more or less for several months; it promoted expectoration and relieved me of an uneasy sensation about the chest, which I had felt nearly a year. As I could procure only one bottle at the time, I have not had an opportunity of testing its merits to the extent desirable in effecting a perfect cure of a diseased state of the lungs; but, from what relief I have experienced, I think it worthy of trial by all afflicted with lung complaints, if attended to reasonably.

LUKE HITCHCOCK.

Cazenovia, June 17, 1837.

Certificate of B. G. Paddock.

FROM my personal knowledge of the good effects of the above named medicine, and information from various sources, I cheerfully concur with the above in recommending the "ELIXIR" to those afflicted with complaints of the chest and lungs. It is a safe and pure medicine, and the numerous recommendations of it value from civil officers, physicians, druggists, minister of the gospel and others, should seem, at least, to claim for it a trial on the part of the afflicted.

B. G. PADDOCK.

Cazenovia, June 20, 1837.

Certificate of Robert Simpson.

THIS may certify that for a long time I have been troubled with a violent pain in my stomach, which was at my strength and reduced me so low that my life was despaired of. Physicians could render me no essential service, and I was giving way to despair, when I was presented with much reluctance to try the effect of N. H. DOWNS' Balsamic Elixir, and it is with pleasure, gratitude and confidence that I state that it is my firm belief that it saved my life; and since I have begun to use it, it has gradually improved, so that I can labor, and believe that if I follow it up, it will eventually restore me to my former health. I therefore esteem it my duty to make this public acknowledgment for the benefit of suffering humanity.

ROBERT SIMPSON,

Fairfield, June 17, 1837.

CASES OF DYSENTERY.

BOWEL Complaints, Fevers, and other diseases incident to the season, will be surely prevented by the use of Morrison's Pills. It has been tested in every Clinic and other disease, and is effectually cured by the persevering use of Morrison's Pills and Powders.

This has been done in thousands of cases. Every kind of Fever, the Small Pox, Measles, that terrible disease the Croup, and every disease yield up their virulence to the sure and effectual Goddess of Health, The Morrison's Hygeian Universal Medicine of the British College of Health. See "Morrison" by Jas. Morrison the Hygeist. It is not to be induced to buy some other kind of those who are using the VERY WORDS OF THE HYGEIST to render far inferior medicine, as can be seen by comparing the Morrison's, with their standing advertisements. To those taking Morrison's Pills, we say, do not stop taking them when you feel worse, rather increase the doses, you must feel worse when the medicine begins to act upon the foul seruous humors of the body, which often have been left to fester themselves with almost fatal grasp to the intestines, and many times made stronger still by muscular and other mortal poisons. Many a restored patient says, I tried Morrison's Pills a few days, felt no better, I think worse, and stopped using them, but soon found I must do something and commenced again with a determina-

## Brandreth's Pills.

### BEWARE OF COUNTERFEITS!!

ALL PILLS sold in the State of Vermont must pass through our hands, as Dr. Brandreth's General Agents. There will no more Pills be sold at the Boston office or by B. H. Moseley, who is no longer Dr. Brandreth's agent, to be resold in this section of the country.

All Pills purporting to be Dr. Brandreth's and sold by persons without a certificate of agency, signed by B. Brandreth and us are Counterfeits.

To prevent all imposition from the circulation of the counterfeits, just let the purchaser ask the vendor for his certificate of agency, signed by Farris & Palmer.

DO NOT PURCHASE PILLS, FOR IN NO INSTANCE do they have the genuine article.

Should any of our agents be caught in the counterfeits, they will be displaced. The Pills must be kept pure, and the counterfeits must be dealt with according to law.

The following persons are agents in their respective towns for the sale of the genuine Brandreth's Pills.

FERRIS & PALMER, Middlebury, Conn.
